IDENTIFIERS	American Indian Education; *Career Clusters Curriculum

ABSTRACT

Simple black and white illustrations portray one occupation for each of 15 career clusters. Directed toward the Indian student and showing Indians at work in the occupations depicted, the illustrations are intended to create an awareness, understanding, and motivation for Indian students to become involved in work, both on and off the reservation. The 15 career clusters are health, personal service, manufacturing, environment, agri-business and natural resources, consumer and homemaking, marketing and distribution, construction, business and office occupations, hospitality and recreation, marine science, fine arts and humanities, public services, communications and media, and transportation. Their illustrated occupations are ambulance attendant, beauty operator, blacksmith, botanist, cattle rancher, clothes designer, grocery checker, heavy equipment operator, hospital administrator, hunting and fishing guide, oceanographer, photographer, police officer, sign painter, and truck driver. All of the illustrations, which may be colored by the student, should serve as a springboard to help the students in understanding what is the career, what training is required, the qualifications, the responsibilities, the earning potential, how it helps others, and what subjects can be studied in school to prepare for that career. DISCRIMINATION PROHIBITED

Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Title IX of the Education Amendments of 1972, Public Law 92-318, states: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance." Therefore, career education projects supported under Sections 402 and 406 of the Education Amendments of 1974, like every program or activity receiving financial assistance from the U.S. Department of Health, Education, and Welfare, must be operated in compliance with these laws.

To The Student

This book has a list of terms and fifteen pages of pictures. The list identifies the fifteen career clusters, and also gives an example of an occupation for each career cluster. The pictures represent the fifteen career clusters. One example of each cluster is presented on each page.

The purpose of this book is to help you understand what is meant by careers and career clusters. Your teacher will talk with you about each career cluster. You will have an opportunity to ask questions, and do some research on some careers, that may help you make some decisions about your future.

Perhaps you have already thought of what kind of work you would want to do when you finish school. This will be your career. Sometimes we have to think about what we want to do for a long time before we make a final decision. We have to limit our ideas to a few, and explore these to help us make final decisions. This book will help you explore some careers that you may be unfamiliar with, and maybe some will be of interest to you. Exploring various careers can help you discover your own abilities, and what you would want to do. Maybe you would want to do something that will help the people in your community. Now is the time to find out about people who are doing what you would like to do. You would want to know such information as the following.

a) what is the career

b) what training is required

c) what are some of the responsiblities

d) how is the career going to help others

e) what are the qualifications

f) what a person can earn

g) what subjects you can study in school to prepare for a career

The pictures in the book will give you some idea of what a particular career looks like and who can do the work. These pictures can be colored with whatever you would want to use.

The (15) Career Clusters

This is a list of the fifteen career clusters. One example of each cluster is listed under the cluster name.
